Why you Should Assure Your Life in the

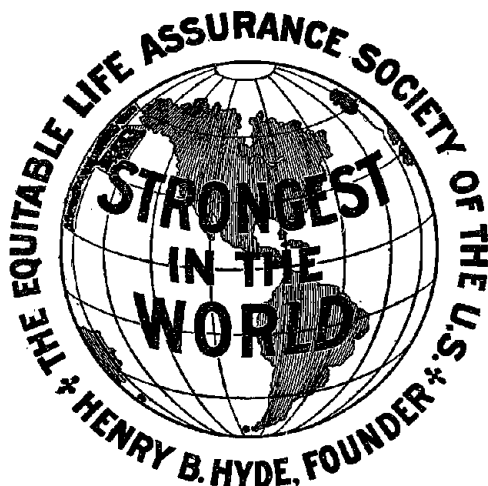

"EQUITABLE."

It is the strongest life company in the world, as the surplus is more by several millions than any other company; over 76 millions January 1st, 1908, and security is the most important requisite of an insurance company.

Death Claims are paid at once on receipt of the proofs of death.

Dividends or profits to the policy holders are more than any other company, so, if you live until the policy matures, you will have a more satisfactory return than from any other company.

Dividends paid policy holders in 1902 nearly 4% millions of dollars.

DIRECTORY

PROFIT

COMPANY

You should make many times the amount of money with a directory that you do without one. If you have just turned out a creditable piece of work for a Butcher, Baker or Candle Stick Maker, look up the addresses of all the other concerns in the same line around you, and notify them and tell them about it. Say to them, "I made these and can make something just as good for you, or better, if you require better." Men are like sheep, they all follow some one, and why should they not follow the crowd into your place, made famous by judicious direct advertising obtained by getting names from the **CITY DIRECTORY** of the latest date.

Any time you or your trusted clerk have a few spare moments, peruse the directory. It should be brimful of suggestions to you. The great use of directories as direct aid to business has become more and more realized by men in all businesses. A good directory is therefore a first-class advertising medium, despite deprecatory remarks made about it in conjunction with nearly all other advertising mediums by those who think that no good thing can come out of anything but a big daily newspaper.

Have a page of advertising in your city directory if you can afford it, or at least a smaller notice. At the very least, have your name in **boldface type** among the lists in the directory. A man starting in business in a town will always look for a printer or engraver in the directory, and in nine cases out of ten he will select the name which is most conspicuous.

Whenever a directory or addressing office is asked for a list of any kind in the business world, they always give first and foremost those in **Black**, because they know they are generally the most enterprising and up-to-date merchants in their lines.

— TYPEWRITER —

With either of these machines a written guaranty is given specifying that the entire cost of repairs will not exceed \$10 in four years' time and that they will have an exchange value of \$50 four years from date of purchase. This reduces the cost of a typewriter to a minimum and enables the smallest business to secure a writing machine.

We will be glad to correspond with parties desiring new or second hand typewriters. We carry a full line of typewriter accessories for all machines, and our mechanics are skilled in the art of rebuilding and thoroughly overhauling machines of all makes. Standard machines always in stock for rental purposes at \$3 per month.

DIRECTORY

PROFIT

COMPANY

You should make many times the amount of money with a directory that you do without one. If you have just turned out a creditable piece of work for a Butcher, Baker or Candle Stick Maker, look up the addresses of all the other concerns in the same line around you, and notify them and tell them about it. Say to them, "I made these and can make something just as good for you, or better, if you require better." Men are like sheep, they all follow some one, and why should they not follow the crowd into your place, made famous by judicious direct advertising obtained by getting names from the **CITY DIRECTORY** of the latest date.

Any time you or your trusted clerk have a few spare moments, peruse the directory. It should be brimful of suggestions to you. The great use of directories as direct aid to business has become more and more realized by men in all businesses. A good directory is therefore a first-class advertising medium, despite deprecatory remarks made about it in conjunction with nearly all other advertising mediums by those who think that no good thing can come out of anything but a big daily newspaper.

Have a page of advertising in your city directory if you can afford it, or at least a smaller notice. At the very least, have your name in **boldface type** among the lists in the directory. A man starting in business in a town will always look for a printer or engraver in the directory, and in nine cases out of ten he will select the name which is most conspicuous.

Whenever a directory or addressing office is asked for a list of any kind in the business world, they always give first and foremost those in **Black**, because they know they are generally the most enterprising and up-to-date merchants in their lines.

The Norfolk Landmark

PUBLISHED EVERY MORNING EXCEPT MONDAY.

The Norfolk Landmark is the Leading Newspaper in Eastern Virginia.

CIRCULATION.

Bone fide paid circulation steadily on the increase.

IT LEADS THEM ALL.

As an advertising medium it has no equal in the field, and is read daily in thousands of homes in Eastern Virginia and Eastern North Carolina.

High Standard in all Departments.

Its literary standard is high in all of the various departments. It is the most influential journal in the Eastern part of Virginia. It excludes from its columns a great deal of the best paying advertising in the country because of the questionable character of the advertisements offered. Its large local business shows how necessary the Norfolk merchants think it is for the proper putting of their business before the people of this vicinity.

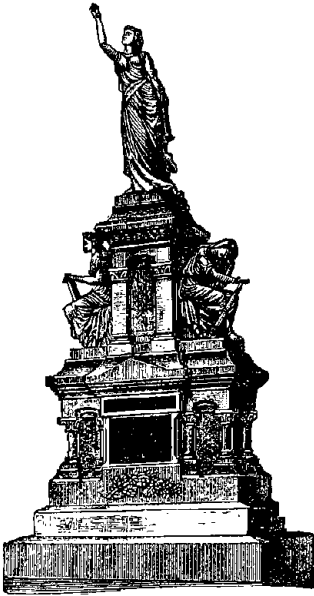

Its Aim is to Give the News,

LOCAL, STATE, NATIONAL AND FOREIGN,
in a clean, compact and attractive form,
